Immediate response in any situation **THE nebulizer**

"Experience a better sense of personal security with the Nebulizer. This revolutionary new crime stopping device instantly immobilizes an attacker, animal or human, with wheezing, coughing, gagging, irritation and stinging of eyes for up to 30 minutes, leaving no after effects. Three-way switch activates: 1. a regular flashlight, 2. a blinding light, and 3. nebulizing spray."

Positive three position switch insures immediate response and control.

High impact unbreakable case of fibreglass reinforced nylon with pistol-grip for ease of handling and instant orientation.

GUARD SHELTER

The GLASHOUSE Guard Shelter is a compact portable shelter designed to keep guard personnel warm and dry. It also provides nominal office facilities. The Guard Shelter is constructed of seamless one-piece molded fiberglass. Unlike wood or metal, GLASHOUSE Guard Shelter will not rot, rust or corrode. It is available in white or gray, permanent molded colors and needs no painting. Fiberglass can be drilled or sawed, so that the Guard Shelter can be easily fitted with light, heat and telephone. It weighs approximately 250 pounds. It can be anchored down using pre-drilled steel straps which bolt into the bottom at each corner of the unit.

Set and Forget TV Cameras

For midnight to noon use.

Here are three new CCTV cameras offering complete hands off operation.

First is the Model CTS2, a low cost high performance camera with 800 line resolution and automatic light compensation.

Next is the Model CTS3, a low light level camera providing 100,000:1 automatic light control for use in applications having street or parking lot lighting.

Third is the Model CTS4, a full night camera with 2,000,000:1 automatic light compensation for use in applications from viewing the sun to watching a fully dark storage yard.

All three are supplied in environmental cases with a wide selection of fixed or zoom lenses.

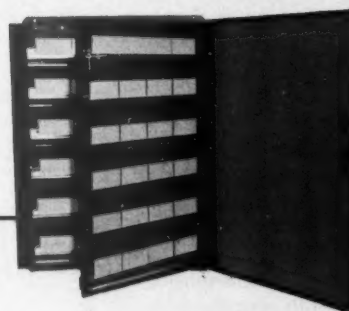

Send for descriptive literature.

**At last.
A tool that makes
pulling wires
in existing walls
easy.**

The D'versiBIT system of installing hidden wires in walls proves again the point: A job is easier when you have the right tool. Purlins, firestops, insulation and even termite shields are no obstacle for this unique inexpensive tool.

Quick line recovery.

Even wire retrieval is a simple operation with our line recovery attachment. Installation over door jams, at windows or at mid-wall from attic to basement is a quick and efficient operation with truly professional results.

Free booklet.

Learn more about D'versiBIT from our free booklet "New Installation Techniques." Ask for a copy at your local distributor or write:

I WANT YOU

Yes, join the Flashguard Army

- If, making sales and profits—not getting bogged down with installation, false alarms, call backs and problems—is your bag.
- If, providing good quality security—not way over-priced and way over-secured protection—makes sense to you.
- If, selling perhaps the alarm industry's only patented conceptual system—not another look-alike jumble of components—captures your imagination.

Flashguard

with major industry firsts:

- An uncomplicated (yet sophisticated) low-cost, mass-market System
- A System designed for owner self-service
- A System that virtually ends false alarms
- A System that transmits alarm signals via light pulses (patented) to eliminate wiring.

We believe Flashguard's the first low-cost, quality residential and small business security system since the beginning of crime! Hundreds of dealers and distributors all over the world are already selling under the Flashguard banner. Thousands of Flashguard Systems already guarding homes, apts., builder tracts, hi-rises, businesses.

FABULOUS FAKES

Well, mix and match . . . you really can't tell . . . shoppers and personnel can't tell—actually, no one can tell!

JAVELIN makes their CC700 Video Camera and DM702 Simulated Camera so that they are complete look-alikes down to the lens, cables and pilot light. This saves you money and increases curtailment of pilferage and shoplifting.

Depending upon the area under surveillance, mix and match the CC700 and DM702 for maximum efficiency—save up to 80%. Mount them on optional motorized or fixed JAVELIN Brackets. You will then be able to cover your most vulnerable areas economically and get maximum security.

There are many more ways JAVELIN can make you money! JAVELIN Security and Surveillance Products fill all your needs, write for the name of the JAVELIN Representative in your city—he wants to help.

Move Up Faster In Law Enforcement

Train for a Place in FINGER PRINT IDENTIFICATION AND INVESTIGATION

Advance more rapidly through home
study in latest crime investigation
and finger print identification meth-
ods. Ever since 1916 The Institute
of Applied Science has specialized
in preparing ambitious police and
security officers in the vital tech-
niques of fingerprinting and identi-
fication. Today over 800 American
identification bureaus employ gradu-
ates of the I.A.S. This training can
open the doors to advancement in
pay and rank. Many departments
sponsor training with the I.A.S.

**Detex security
equipment gives you
peace of mind,**

piece by piece.

Right now, one Detex Exit Control Lock may be all the security you need. As new security problems arise, you can combine Detex equipment, unit by unit, into a complete security network.

Or if you've already started to build a sophisticated system, we can interface with existing equipment to back up weak spots.

Detex Exit Control Locks and Exit Alarms protect unlocked exit doors, bringing pilferage to a howling halt. DENTCO coded-card entry systems keep restricted doors locked to unauthorized individuals. Detex Remote Indicating Panels keep an eye on every security point from a central location.

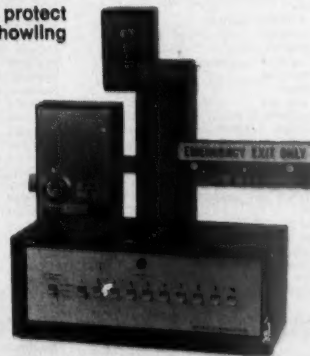

Depend on Detex low-voltage, high security equipment. For a moderate investment, you'll have maximum peace of mind.

Call or write for free literature today.
